Abstract

Summarize your project proposal, using key points from the application form, e.g., overall purpose and major activities. List all libraries participating in the grant. (If your project is funded, this summary will be included on the LSTA website and made available upon request. While the Abstract is not specifically awarded points, reviewers award a maximum of **10 points** based on the overall merit of the project.)

The grant funds will be used to help pay for several features on our WALS automated catalog/circulation system that will benefit our member libraries and their users.

For several years, we have purchased additional content for our OPAC records: Contents notes, reviews, excerpts, and cover art from Syndetic Solutions. Another product may be considered for 2010. The added content for the catalog has been well received by both library staff and patrons and has enhanced the usefulness of the OPAC.

We will continue to maintain a Z39.50 interface to allow other libraries ILL access to our catalog.

Abstract

Summarize your project proposal, using key points from the application form, e.g., overall purpose and major activities. List all libraries participating in the grant. (If your project is funded, this summary will be included on the LSTA website and made available upon request. While the Abstract is not specifically awarded points, reviewers award a maximum of **10 points** based on the overall merit of the project.)

Winnefox intends to offer a grant program to member libraries to achieve the purposes of this grant. Libraries will be asked to match grant funds with 25% of the project costs coming from local funds.

Libraries will be required to submit an application explaining how the funds will be used, how staff will be trained, how the project will be publicized, marketed and evaluated, and how other community groups will be involved.

In the case of more funds being requested than available a committee of representative library directors will evaluate the applications and recommend which libraries should receive grants. If grant requests do not equal funds available libraries may receive funding above 75% of the project costs.
